

INSTRUCTIONAL DESIGN AND TECHNOLOGY

Schedule an information session. The program is designed for those who are already involved in areas of technology or curriculum development such as educators preparing online content, curriculum developers, HR professionals, web developers, or software consultants. This degree will provide you with an understanding of learning and design theories, models, and instructional strategies. It includes hands-on work developing computer-based training pieces. The degree is available completely online (though cohorts can be formed upon requests for a web-enhanced/face-to-face hybrid instructional environment).

WHY UHCL?

- Rated Best Regional University and Best Value in 2018 and 2019 in U.S. News & World Report
- Accredited by the Council for the Accreditation of Educator Preparation
- Fully online program
- 36-hour program
- Accelerated program option
- Excellent student support
