See a community college counselor for more information. Please note that not all courses are offered at all community colleges. Check with your counselor for availability of courses on your campus.

- * UHCL's requirements are consistent with the 42-hour Texas core curriculum. If a student completes a component of the core at one Texas institution, that block of courses will be substituted for UHCL's same core component(s). Additional Program Foundation courses are required. **Please refer to your community college's core requirements for specific courses in each area below.**

- j** BUS graduation requirements specifically include **both Finite Math AND College Algebra** (or Calculus).

These courses are either prerequisite courses for required university courses, courses required for the associate degree, or are required remedial courses to satisfy the TASP mandate.
- # The core component number is used by Texas schools to identify which area of the 42-hour core curriculum a course fulfills.
