

Comprehensive Module: Administration of Programs for Children with Disabilities

This comprehensive module is recommended for use after reviewing the module, *Assessment of Second Language Learners: Prereferral to the Provision of Services*.

This module is designed to facilitate the review of fundamental special education and section 504 requirements for public schools. A careful study of Section C. 4 *Manifestation Determination Review* in the Module Content section has been recommended by public school personnel directors in the Houston metropolitan area as preparation for questions to be expected in the principal/assistant principal selection process.

**A Comprehensive Course Module
By Dr. Belinda Box**
