- 13 1. Courses that OIE excluded from the Avg. Class Size and faculty course load
report according to each School's instructions for course load classes:
- 13 2. Syntax used on the certified CBM-004
- 14 - 34 3. List of Courses and the frequency of sections included as Organized Classes for Fall 2007 by School:

University of Houston-Clear Lake
Office of Institutional Effectiveness
Distribution of Course Sections by Class Size and Average Organized Class Size
by School and Student Classification

Definition and Methodology for extracting Organized Classes:

Any class categorized as Lecture, Laboratory or Seminar with some Practicum exceptions for HSH and SOE. This methodology selects only classes that are Lecture, Laboratory and Seminar using item6 of the certified CBM-004 and selects all HSH Practicum courses and only SOE Practicum courses with an enrollment greater than 5. Organized classes also include internet delivery modes. All courses reported on the certified CBM-004 report were extracted based on the criteria above for this report. Further, additional criteria were implemented based on faculty course load information received from each of the schools. See technical notes for details regarding other exclusions. Data will differ from previous reports because certified data files and a refined course selection methodology are being used. **Please note** that some schools, HSH in particular, teach a large number of cross-listed courses that may distort the average class size computed for this report as well as some off-site courses that may consist of small enrollments - use discretion when interpreting the output. Thank you and please contact OIE if you have any questions.

Key: Num = Total number of organized class sections
 Enrl = Total Duplicated Enrollment in organized class sections
 Avg = Average Organized Class Size (Enrl / Num)

*Recode into same variable "CrsCounted", system missing to a 1 (1 is counted towards course load) and 2 to 2 (2 is not counted for courseload). 2 represents all of the courses outlined below. Use this syntax in conjunction with the syntax detail outlined in number 2.

2. Syntax used on the certified CBM-004

Any item with 0 or missing in item103 - Course enrollment without duplicated lab section was also filtered out. This would also mean courses with 0 SCH in item7 - (SCH value) so that course plus lab is counted only as 1 section.

This selects only classes that are lecture, laboratory and seminar using item6 of the cbm-004. Item6 is type of instruction.

* HSH Practicum courses are treated as organized.

* If (school=2 and item6=1) type=1.

* SOE Practicum courses with an enrollment greater than 5 are treated as organized.

* If (school=4 and item6=3 and item103 > 5) type=1.

DO IF (ANY(item6,1,2,4)) .

COMPUTE organized_class = 1 .

ELSE IF (school = 2 & item6 = 3).

COMPUTE organized_class = 2 .

ELSE IF (school = 4 & item6 = 3 & item103 > 5) .
