

## **Shell Oil Company Internship Opportunities for MS Industrial Hygiene Students**

### **Company Description**

Shell is a global group of energy and petrochemical companies, operating in more than 140 countries and territories, employing more than 109,000 people.

The aim of the Shell Group is to meet the energy needs of society, in ways that are economically, socially and environmentally viable, now and in the future.

In the US, Shell Oil Company is one of America's leading oil and natural gas producers, natural gas marketers, gasoline marketers and petrochemical manufacturers. Shell, a leading oil and gas producer in the deepwater Gulf of Mexico, is a recognized pioneer in oil and gas exploration and production technology.

Around the globe, Shell companies work in partnership with industry, government and society to deliver what is expected of us - economically, socially and environmentally. We invest and collaborate in the development of new technologies that will keep improving our performance. We try to ensure that our employees continuously acquire new skills and capabilities, through training and experience in their own countries and assignments abroad. And we constantly check how well we're doing, with internal and independent audits of every aspect of our business.

### **Project Description**

- Perform personal air monitoring on employees, enter sample data into a data base, package and ship samples, interpret results
- Perform testing and evaluation of local exhaust ventilation systems, review test results
- Participate in the process of new chemical approvals
- Participate in the review process of new projects and the impact that they will have on employees
- Perform office ergonomic evaluations
- Participate in calibration and maintenance of direct reading monitoring equipment used to collect data during process upsets or emergencies
- Collect heat stress data while employees are working in hot environments
- Review and update as necessary the process area noise contour maps

### **How To Apply**

Students interested in being considered for an internship should submit an online application at [www.shell.com/careers](http://www.shell.com/careers). Please provide a copy of your resume and an unofficial copy of your transcript in your application.
