

***LIMNOLOGY (Aquatic Ecology) (BIOL 5931)***  
***SPRING 2009: University of Houston Clear Lake***  
***Tue 4 -6:50 PM Bayou Bldg 3211 (+ Field Trips)***

- Are you interested in learning about the ecology of freshwater systems including wetlands, streams, rivers, bayous, ponds, lakes and reservoirs?
- Are you interested in learning new practical skills that future employers would be very interested in like how to conduct hydrological, chemical and biological assessments of freshwater systems?
- Are you interested in learning how to identify common freshwater organisms?
- So what are you waiting for?? Sign up for *Limnology*
- Still need more information call: Dr. George Guillen 281-283-3950; [Guillen@uhcl.edu](mailto:Guillen@uhcl.edu). Local and Regional Field Trips!!
